SHARP “REMOTE LIFE” SOLUTIONS CATER TO THE NEEDS OF THE NEW NORM

Solusi Teknologi “Remote Life” Dari Sharp Penuhi Keperluan Norma Baharu

By amalina - July 14, 2020 16

Sharp Electronics (Malaysia) Sdn Bhd (SHARP) melihat peluang besar untuk teknologi dan penyelesaiannya membantu proses pemulihan negara. Berkembang seiring dengan keperluan masa kini, SHARP bertekad untuk membantu para pengguna, dalam perniagaan, bilik darjah, dan isi rumah, dalam menyesuaikan diri dengan ‘normal baharu’ menerusi ekosistem penyelesaian, yang diperkenalkan buat pertama kali di Konvensyen Pengedaran Maya SHARP baru-baru ini.

“SHARP terus menjadi pembekal penyelesaian inovatif terulung dengan legasi di Malaysia yang menjangkau tempoh 35 tahun. Kami sentiasa menghasilkan inovasi penyelesaian untuk membantu pengguna menghadapi cabaran masa kini. Beberapa bulan kebelakangan ini, seluruh dunia didorong mempertingkatkan penggunaan penyelesaian digital lebih pantas berbanding sebelumnya. Mengambil kira kepentingan komunikasi dan keselamatan pengguna dalam ‘normal baru’, pengenalan konsep ‘Remote Life’ SHARP tahun ini tepat pada masanya bagi mewujudkan pejabat dan bilik darjah lebih pintar dan saling berhubung,” jelas Pegawai Urusan Eksekutif, Timbalan Ketua Pegawai Eksekutif, Perniagaan ASEAN dan Pengerusi Sharp Electronics (M) Sdn Bhd, Robert Wu.

Syarikat gergasi elektronik pengguna ini berkongsi rancangannya untuk memperkuatkukuhkan kedudukan jenama dan mengembangkan pasaran menerusi strategi perniagaannya yang dinamik. SHARP kekal antara jenama teratas dalam kalangan pilihan pengguna menurut

kajiselidik pasaran global. Analisis tinjauan pasaran, untuk tempoh Jun 2019 hingga Mei 2020, mendapati bahawa SHARP mendominasi kedudukan nombor satu dalam segmen produk peti sejuk dan mesin basuh berbanding pesaingnya, dengan menguasai sebahagian besar pasaran, sekitar 20% di Malaysia. SHARP juga tersenarai di antara tiga jenama teratas dalam segmen produk televisyen dan penyaman udara.

Menyuntik keterujaan dalam pasaran, SHARP melancarkan konsep ‘Remote Life’ baharunya sebagai tarikan utama konvensyen maya, dengan memberi tumpuan kepada kelancaran komunikasi dan keselamatan pengguna. Konsep ini merangkumi tiga penyelesaian untuk tiga bidang utama iaitu, ‘Remote Meeting’ atau mesyuarat secara maya untuk perniagaan, ‘Remote Education System’ SHARP atau sistem pendidikan secara maya untuk bilik darjah dan ‘Remote Lifestyle’ atau gaya hidup secara maya agar pengguna atau isi rumah mampu terus berurusan dengan berkesan dan selamat dalam ‘normal baharu’ ini.

Dalam usaha menyokong pemulihan perniagaan dalam rangkaian pengedar, SHARP juga mengambil kesempatan untuk memperkenalkan platform e-dagang baharu, eSHARP, di konvensyen mayanya.

Membezakan dirinya agar menerajui pasaran, SHARP mengembangkan eSHARP khususnya bagi mendorong hasil kembali kepada pengedar.

“Dalam persoalan keselamatan dan kesihatan, kami memahami para pelanggan kami inginkan saluran yang lebih baik untuk mendapatkan produk SHARP kegemaran mereka. Platform eSHARP kami mewakili konsep perniagaan runcit ‘aras kedua’ yang membolehkan para pelanggan membuat pembelian secara mudah. Pada masa yang sama, ia mengukuhkan kedudukan rangkaian pengedar sah kami serta menyokong perniagaan mereka. Proses pembelian pelanggan dijamin selamat tanpa ragu-ragu mengenai ketulenan produk SHARP dari pengedar sah kami. Strategi perniagaan baru ini akan membantu pengedar kami memperolehi pendapatan dalam talian dan meningkatkan interaksi bersama pelanggan,” terang Wu.

Memandangkan suasana ekonomi sosial semasa, SHARP memahami para pengguna mementingkan harga yang bersesuaian dengan kemampuan di samping memperolehi penyelesaian berkualiti. Di konvensyen mayanya, gergasi penyelesaian elektronik ini telah mengumumkan rancangan untuk melancarkan rangkaian *produk baharu termasuk rangkaian TV BIG AQUOS dan peralatan rumah pada tahun ini. Bertekad untuk memperluaskan pasarannya, SHARP juga mengumumkan kerjasama dengan BACFREE bagi memperkenalkan produk air. Kerjasama ini akan melengkapkan Penyelesaian ‘Air of Confidence’ SHARP yang terdiri daripada rangkaian Pembersih Udara, Penyamanan Udara dan Penyejuk Udara yang dilengkapi teknologi Plasmacluster.

SHARP berhasrat untuk mengekalkan kedudukannya sebagai jenama Jepun no.1 di Malaysia. Strategi pertumbuhan masa hadapannya disokong oleh kedudukan utuhnya di pasaran dan rancangan SHARP untuk memanfaatkan jalinan usahasama atau perkongsian jenama dengan perniagaan atau produk baru. Langkah ini akan mempelbagaikan dan memperluaskan kewujudan dan portfolio jenama SHARP dalam memenuhi keperluan pelanggan dengan lebih baik.

【TechDaily 电子报 2020 年 7 月 14 日莎亚南讯】随着武汉肺炎（新冠病毒）疫情为全球带来冲击，Sharp 首办虚拟大会，不仅展示了远端教学、远端会议与远端健身，还推出了 eSharp 网站进军电商市场。

目前因疫情为了遵守标准作业程序（SOP）及保持安全社交距离等所产生的新常态生活模式，民众对于新常态后的各项设备需求与日剧增，尤其以远端教学，远程办公等所产生的需求最为重要。

夏普电子马来西亚有限公司（Sharp）今日在虚拟经销商大会上首次推出全新的生态系统方案，决心协助使用者在企业、学校和家庭融入新常态，该公司有信心其技术与方案将大有作为，有助于国家经济复苏。

远在日本的夏普高层也特别以视讯会议方式现身，不仅共同推介虚拟大会，同时还一起出席记者会回答环节。

夏普还借此机会在虚拟大会上推出新开发的电子商务平台 eSharp 来协助传统线下经销商转型至线上，这个平台不但是能让消费者有独享优惠与经销商增加盈利之外，更希望民众在 eSharp 线上购买后也能得全马超过 500 个经销商的完整售后服务。

根据全球市场调查集团，Sharp 仍是消费者首选的顶级品牌之一。从 2019 年 6 月至 2020 年 5 月期间的市场调查显示，与竞争对手相比，Sharp 在冰箱和洗衣机产品领域居首，在马来西亚占据约 20% 的多数市场份额。

Sharp 电视及空调也被列为三大首选品牌之一，而在复原式限行令 (RMCO) 期间民众对于家电产品的需求更是强劲，而 Sharp 也在这个时间点发布一系列全新商品，尤其以冰箱、洗衣机、空调与微波炉等商品主打变频与省电，而电视机是主攻 60 寸以上的大尺寸型号电视机。

Sharp 在虚拟大会上发表全新的远端生活概念，专注于让消费者保持着持续性联系并确保他们的安全课题将为市场注入新元素，已然成为大会的亮点。该概念囊括三个关键领域的方案，即商业远端会议、Sharp 远端教育系统及适用于一般使用者或家庭的远端生活方式，让人们有效及安全地在新常态下生活。

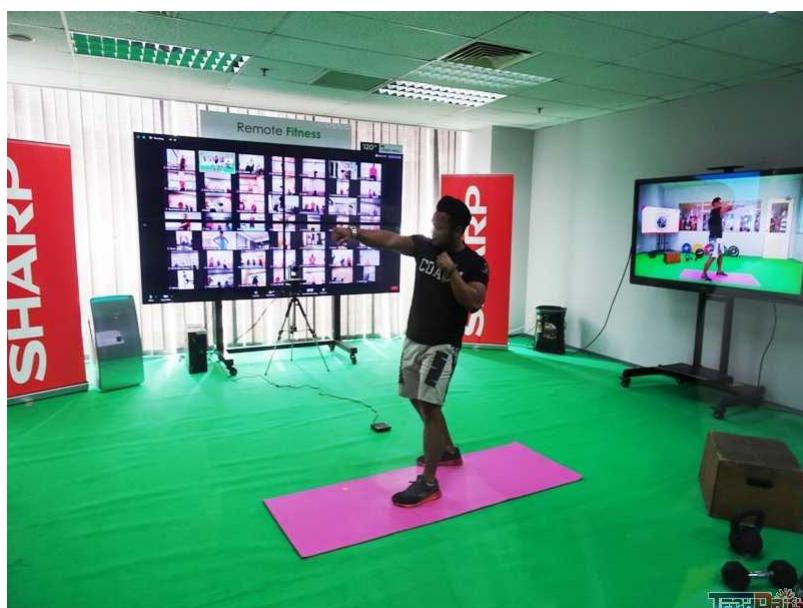

Sharp 还在现场特别展示了远端会议（ Remote Meeting ）、远端教学（ Remote Education ）及远端健身（ Remote Fitness ）运作方式。

为了保持其在马来西亚的第一大日本品牌的地位，Sharp 还借此机会在虚拟大会上推出新开发的电子商务平台 eSharp 来协助传统线下经销商转型至线上。

除此之外，这个平台不但是能让消费者有独享优惠与经销商增加盈利之外，更希望民众在 eSharp 线上购买后也能得全马超过 500 个经销商的完整售后服务。

夏普常务执行役员暨东协业务副执行长，马来西亚会长吴柏勋指出：“Sharp 岀立于马来西亚长达 35 年，至今仍然是创新方案的领先供应商。主要原因是我们不断寻求创新的解决方案，协助消费者面对当今的挑战。”

“在过去的几个月里全世界开始采用比以往更快速的数码方案。鉴于我们目前融入“新常态”时强调让消费者保持着持续性联系及确保他们的安全，Sharp 今年推出远端生活概念对于更精明互动的教室和办公室环境而言是有意并及时的。”

吴柏勋解释：“关于安全及健康课题，我们了解我们的客户希望可以更方便地接触他们喜爱的 Sharp 产品。Sharp 平台象征着“2 楼零售商业模式”，让我们的客户通过网络开拓他们在授权经销商实体店的购物体验并完成交易。我们向客户保证，他们可以放心地享受安全的网上购物体验，因为授权经销商只能提供正版的 Sharp 产品。这项新的商业策略将帮助我们的经销商通过网路获得收入并提高客户的参与度。

鉴于当前的社会经济环境，Sharp 了解消费者对价格与高品质的需求。这家电子巨头在虚拟大会上宣布，计划今年推出全新产品系列，包括其标志性的大型 AQUOS 电视系列及家用电器。

与此同时，Sharp 也强调与在当地经营过滤水设备的 BACFREE 品牌合作，除了原先带有 PCI 独家正负离子空气净化技术的空气清净机外。此次合作将完善 Sharp“好空气与喝好水”的全套解决方案。

Over the past few months, the whole world has been driven to adopt digital solutions faster than we've ever seen before. Given the current emphasis on seamless communication and safety of consumers as we embrace the 'new normal', the introduction of SHARP's *Remote Life* concept this year is intentional and timely for smarter and connected environments in classrooms and offices," explained Executive Managing Officer, Deputy Chief Executive Officer, ASEAN Business and Chairman, SHARP Electronics (M) Sdn Bhd, Robert Wu.

The consumer electronics giant shared its plans to strengthen its brand position and grow market share through its dynamic business strategy. SHARP remained among the top brands preferred by consumers according to global market research group. machine product segment in comparison to its competitors, holding a majority market share of approximately 20% in Malaysia. SHARP is also listed among the top three preferred brands in the television and air conditioning product segment.

Injecting excitement into the market, SHARP unveiled its new Remote Life concept as a highlight of the virtual convention, focusing on seamless communication and safety of users. The concept comprises three solutions for three key areas namely, Remote Meeting for businesses, SHARP Remote Education Systems for classrooms and Remote Lifestyle for the general user or household to operate effectively and safely in the new normal.

To support the recovery of businesses within its dealer network, SHARP also took the opportunity to introduce its new e-commerce platform, eSHARP, at the virtual convention. Setting itself apart, SHARP developed eSHARP to drive revenue back to dealers.

"Amid safety and health concerns, we understand our customers want better access to their favourite SHARP products. Our eSHARP platform represents a 'second floor' retail business concept for our customers to shop at and extend our authorised dealers' physical store presence and compliment their business. Customers are assured of a secure online shopping experience and peace of mind knowing the quality of genuine SHARP products from authorised dealers. This new business strategy will help our dealers gain online revenue and enhance customer engagement," explained Wu.

In view of the current social economic environment, SHARP understands the consumer's need for affordability alongside quality solutions. The consumer electronics solutions giant announced at the virtual convention its plans to debut a new *product line-up including its signature BIG AQUOS TV range and home appliances this year. Determined to grow its market share, SHARP also highlighted its partnership with BACFREE® to introduce water products. The partnership will complement SHARP's 'Air of Confidence' Solutions comprising of Air Purifiers, Air Conditioners and Air Cooler products fitted with Plasmacluster technology.

SHARP aims to retain its position as the no.1 Japanese brand in Malaysia. Its growth strategy for the future is supported by a strong market presence and SHARP plans to leverage further on business partnerships or co-branding of new businesses or products. These will diversify and expand the SHARP brand presence and portfolio to better serve the evolving needs of customers.

PROGRESSING TOWARDS A NEW WORLD OF REMOTE SOLUTIONS; SHARP SHOWCASES REMOTE LIFE SOLUTIONS

夏普（Sharp）日前举办了一场以远端生活概念为主题的发布会，并首次以虚拟方式呈现，将分别位于曼谷、日本、马来西亚的4位主讲人聚集在同一个画面上。相比起以云端会议软件，这种呈现方式确实更为生动、清楚。

这场疫情改变了各行各业和民众生活，除了远端办公、线上教学、线上运动，许多活动也都相继改为线上举行，甚至包括了线上婚礼。它直接加快了「数码转型」的速度，让我们更快地走向远端新世界。

奔向远端新世界
Sharp远端生活概念发布会

夏普执行总监丁洋中表示，除了远程解决方案，今年新品也因应疫情关系而做出调整，包括推出主打变频与省电的冰箱、洗衣机、冷气机和微波炉，而电视机则是主攻60寸以上。「因为大家待在家的时间长了，对家电要求也有所提高。」

夏普（Sharp）日前举办了一场以远端生活概念为主题的发布会，并首次采用虚拟呈现方式，将分别位于曼谷、日本、马来西亚的4位主讲人聚集在同一个画面上。

「进入新常态，大家必须习惯远端生活。」夏普执行总监丁洋中在发布会上如此表示。然而，想展开远端生活，得先确保手上的设备有办法应付远端的需求，否则一切都是空谈。「例如线上教学，老师只有一台13寸荧幕的笔电。这将会大大限制了老师的教课形式，因为没办法透过肢体语言、表情作为讲解。」

针对远端生活，夏普提供一系列产品包括：互动式电子白板、4K超高清质

量面板、远端会议视频会议系统、远端演示视频系统等等。对于企业该如何挑选合适的设备，丁洋中表示：「基本上都必须客制化，因为每家企业的作业方式都不同。」他坦言，远端解决方案的概念早在几年前就已经推出，只是当时大家觉得没有使用的必要，而且相比起远端沟通，大家更倾向于面对面。「但随着疫情来袭，大家别无选择，必须学会接受。」

3场景直观展示

现场设置了3个场景，包括远端会议、远端教育以及远端健身。他透露，Brickfields亚洲学院目前已采用远端教室方案。即便各大院校陆续复课，但为了符

合社交距离，必须把一班「拆」成两班。比方说，原本有二十多班，就必须分拆成四五十班。「重点是老师只有一个，如何分身到两个班呢？透过远端教室系统，就能将教师授课内容即时传播至远端。」简单来说，就是有一间主播教室及一间或者数间远端教室，教师在主播教室授课，学生则在另一个远端教室听课，师生间可以做即时的交谈及回答。而且授课过程可全程被记录，方便学生往后复习或重听。

此外，CrossFit Pahlawan健身中心也融入了远端方案。健身中心负责人表示：「透过由4台液晶电视组成的120寸的大荧幕，能让教练更容易看到学员们的动作、姿势，避免做错而导致受伤。」

完整方案需结合AIoT

疫情突袭，让我们在非常急促的情况下展开了远端生活。对于远端生活，我们其实还欠什么？丁洋中分享：「从夏普角度出发的话，我们还欠缺软硬整合的方案。」夏普以出售家电起家，价值有限，要增加价值，就得看要怎么帮客户解决问题。而要帮客户解决问题，只靠硬体肯定不够，软体、顾问、训练也要通通包办，才能打造出完整的解决方案。

他道出心目中的理想远端生活是结合智能物联网（AIoT）技术。比方说，在优管上看到一个食谱，并计划要在周末烹煮，然后你对著电视说了句：「电视，我星期日要煮这道菜。」这时电视就会把你的命令分别传达给冰箱、烹饪锅，让冰箱自动网购食谱需要的食材；烹调锅负责把食谱烹煮出来。

疫情后 远端商机犹在

我国疫情貌似进入了稳定，那疫情过后，远端商机还在吗？「我个人觉得不会完全消失。」丁洋中举例，在行管期间，需要透过远端完成工作、学习者为100%；进入有条件行管时约为70%；复苏期则是50%。「即便接下来会降至30%，但还是有需求。」另外，目前包括推特和面子书已表示，未来将开放让员工在家上班，甚至可以永久在家办公。面子书创办人朱克伯格（Mark Zuckerberg）表示，该公司目前在全球拥有超过4万8000名员工，在未来5到10年，将有半数员工属于永久远端办公。这个原本只是企业因应疫情的应急措施，现在反而成了企业工作职场的新选择。

与此同时，台湾媒体《数位时代》从以下3点分析，认为疫情过后远距商机不会衰退，并认为远端工作的趋势及远端服务商机仍会继续扩大和发酵。

1. 新旧习惯的改变

在过去纵然有新技术、科技产生，若原有的模式或服务不至于难以使用，于日常行为或消费上人们仍具有原本的惯性，不易改变其行为。

然而因社交距离及非接触的环境要求下，迫使许多人于工作、消费场景上改变，从而使相关组织和人们重新审视数码工具，如视讯工具之采用、虚拟会议室等既有商业活动和人际互动，原本习惯实体消费活动的消费者也会在这波疫情影响之下，将其活动转向虚拟世界的使用，如电商购物及电子支付的使用增加，于疫情过后也可能因体会到数码便利性，而继续使用。故，当用户被引入到数码环境并改变既有习惯或养成新习惯，于疫情退去后，仍会继续于数码世界产生相关需求。

2. 投资成本转化成数码转型的养分

企业、公司已经投资过的数码工具如远端协作工具、非接触的服务使用（如网络银行、电子支付）等，在疫情环境下使组织人员更进一步练习和使用数码工具。组织在未来活动进行会更为便利并弹性远端协作，并不会因疫情结束后就不再使用，更可能因前述全球消费者和社会环境之改变，将已投入的钱和时间成本思考如何转变为未来效益，以数码化思维增进工作效率；更进一步则是整个企业团体及组织培养出数码思维，以迎接那个各行各业被数码环境所改变的未来。

3.5G的高速通讯时代

5G网络的发展已经逐步开始，当5G网络落实到我们生活当中，并加上既有设备提升、物联网等相关概念的采用，如家中透过声控设备控制各种电器或操作智能设备；5G通讯速度的革新会更进一步解放消费端硬体之需求，云端的商务和消费模式更加有利，如游戏产业的硬体价格下降，降低消费者的游玩成本，并因传输速率增加而提升图像和游玩体验。在自驾车及无人机的应用也会扩大远距商机与运输、物流行业之发展。

Sharp Electronics unveils its 'Remote Life' ecosystem of solutions

KUCHING: Sharp Electronics (Malaysia) Sdn Bhd recently unveiled its 'Remote Life' concept focusing on seamless communication and safety of users.

Debuting at the Sharp Virtual Dealer Convention, it will assist users in businesses, classrooms, and households to embrace the new normal through an ecosystem of solutions.

In a press release, Sharp Electronics said the concept comprised three solutions for key areas — Remote Meeting for businesses, Sharp Remote Education Systems for classrooms, and Remote Lifestyle for the general user or household to operate effectively and safely in the new normal. To support the recovery of businesses within its dealer network, Sharp also introduced its new e-commerce platform eSHARP in its effort to drive revenue back to dealers.

"Amid safety and health concerns, we understand our customers want better access to their favourite Sharp products. Our eSHARP platform represents a 'second floor' retail business concept for our customers to shop at and extend our authorised dealers' physical store presence and complement their business.

"Customers are assured of a secure online shopping experience and peace of mind knowing the quality of genuine Sharp products from authorised dealers. This new business strategy will help our dealers gain online revenue and enhance customer engagement," said Sharp Electronics (Malaysia) Sdn Bhd's chairman and Sharp Asean business deputy chief executive officer Robert Wu.

He said over the past few months, the whole world has been

driven to adopt digital solutions faster than ever seen before.

"Given the current emphasis on seamless communication and safety of consumers as we embrace the 'new normal', the introduction of Sharp's Remote Life concept this year is intentional and timely for smarter and connected environments in classrooms and offices," said Wu.

The consumer electronics giant also shared its plans to strengthen its brand position and grow market share through its dynamic business strategy as the brand remained among the top brands preferred by consumers, according to a global market research group.

"The insights of the market survey, for the period of June 2019 to May 2020, found that Sharp dominated the number one position in the refrigerator and washing machine product segment in comparison to its competitors, holding a majority market share of approximately 20 per cent in Malaysia.

"Sharp is also listed among the top three preferred brands in the

television and air conditioning product segment," said the press release.

In view of the current socioeconomic environment, Sharp Electronics said it understood consumers' need for affordability alongside quality solutions. At the virtual convention, Sharp announced its plans to debut a new product line-up, including its signature Big Aquos TV range and home appliances this year.

Determined to grow its market share, the company also highlighted its partnership with Bacfree to introduce water products. The partnership will complement Sharp's 'Air of Confidence' Solutions comprising Air Purifiers, Air Conditioners, and Air Cooler products fitted with Plasmacluster technology.

"Sharp aims to retain its position as the number one Japanese brand in Malaysia. Its growth strategy for the future is supported by a strong market presence and Sharp plans to leverage further on business partnerships or co-branding of new businesses or products," added the press release.
